Academics

Course catalogue

www.su.se/english/education/courses

Students will be contacted with a list of courses offered, along with a course registration form (roughly in May for Autumn Semester and November for Spring Semester).

After returning the course application form, students will be pre-registered for courses and will find out which courses they have been registered for upon arrival.

Students may add/drop courses only after consulting the International Coordinator at the host and home universities.

Academic prerequisites

Students should note the prerequisites for the course(s) selected. If the prerequisites for a course are not met, the student will not be registered.

Full-time workload

Students are expected to study full-time during their exchange period at Stockholm University. Full-time studies comprises 30 credits per semester, e.g. four 7.5 credit courses during four course periods or two 15 credit courses during two periods. There are four periods in one semester.

The majority of the credits should be taken at the Dept. of Political Science.

Autumn Semester Exams

Please note that the autumn semester lasts until the middle of January. It is, therefore, important for students to plan accordingly in order to be able to attend their courses until the very end of the semester. It is generally not possible to take exams earlier. There is no official break period during the winter holidays, so students should check their class schedules before making travel plans.

Class attendance

Students are expected to attend all lectures and seminars. For the seminars, attendance is compulsory. Failure to attend mandatory seminars can result in not receiving a final grade for the course.

Transcripts

Two copies of the students' official transcripts will be sent to the International Office of the home university after the end of the semester (February/ July). Transcripts will be sent automatically, so students need not to request them. Note that only courses for which a passing grade was achieved will appear on the transcripts.

Grading system

The Department of Political Science will only issue grades to its exchange students in accordance with the grading scale used at Stockholm University that is A, B, C, D, E or F/FX. For more information, see www.su.se/english/education/courses/higher-education-system
